ABOUT THE PROFESSOR:

A native New Yorker, The Professor has worked as both a nightlife and private events DJ in the tri-state area since 2010. Learning the art form from some of the best in the business, The Professor worked hard to develop his style of DJing and how to present music to the masses. He prides himself on being a DJ who "gives people what they want, as well as what they did not know they wanted."

If you are at an event where The Professor is on the decks, you will be exposed to his seamless and technically creative perspective of current hits, throwbacks, and great music you just never knew existed. Whether it's providing the atmosphere for the grand opening of the Highlight Room for Tao Group in New York City, to spinning a sunset wedding in the Hamptons, or DJing in front of 2000+ under the Macy's fireworks for the Fourth of July, The Professor provides that perfect soundtrack for any event. Because he loves all types of music, versatility is far from lacking in the Professor's sets. He will move through a variety of decades and genres, his sets always producing those "aaaaahhhhhh" moments on the dance floor.
